Rs. 22,900 cr. semiconductor plant to come up in Mysuru

- Kochanahalli belt near Kadakola likely location; Consortium seeks 150 acres
- Stakeholders welcome move; to result in overall development of Mysuru region

Mysuru, May 2 (RK&BCT)- Stakeholders and industry captains have welcomed the State Government's decision to set up a Semiconductor Fab Plant in Mysuru with an investment of Rs. 22,900 crore (Three Billion Dollars).

A Memorandum of Understanding (MoU) was signed in Bengaluru yesterday with Israel-based International Semiconductor Consortium ISMC Analog Fab Private Limited.

Additional Chief Secretary in the Department of IT, BT Dr. E.V. Ramana Reddy and Director of ISMC Ajay Jalan signed the MoU in the presence of Chief Minister Basavaraj Bommai.

Government sources said that the ISMC is one of the three applicants for the Union Government's 10-Billion Dollar incentives for semiconductor manufacturing. This will be India's first and largest semiconductor fabrication unit.

Sources from the Mysore Chamber of Commerce and Industry (MCCI) said that the likely location of the plant will be at Kochanahalli Industrial Area that is located near the Mysore Airport that is being expanded as a full-fledged Airport.

Kochanahalli is in close proximity to Kadakola, Adakanhalli, Thandya and Immavu that already have many industries.

The likely venue is also close to the Container Corporation of India (CONCOR) that is being constructed at Kadakola.

The ISMC has sought 150 acres to set up the semiconductor fabrication plant that is expected to generate more than 1,500 direct jobs and 10,000 indirect jobs.

Bridge course for Ukraine returnee medicos at JSS from May 11

Institution flooded with calls from more students desperate to continue studies

Suttur Seer Sri Shivarathri Deshikendra Swamiji addressing a press conference yesterday as (from left) JSS Academy of Higher Education & Research (JSS AHER) Registrar Dr. B. Manjunatha, JSS Medical College Principal Dr. H. Basavana Gowdappa, JSS AHER Vice-Chancellor Dr. Surinder Singh and Pro-Chancellor Dr. B. Suresh look on.

Mysuru, May 2 (BCT)- The bridge course offered by JSS Medical College for Indian medical students, who came back home from Ukraine due to war with Russia and those who could not go back to China owing to COVID-19 outbreak, has received an overwhelming response.

All the 500 seats announced by the institution have been taken and 11 more have been added, taking the total to 511. The course will begin from May 11.

"Admissions have closed but we are getting continuous calls from students and parents who want to take up the bridge course but we are unable to accommodate them. In fact we can provide quality teaching for 511 students so that they can continue their disrupted studies," Dr. D. Sunil Kumar, Associate Professor of Community Medicine, JSS Medical College, told *Star of Mysore* this morning. "We are not assigning separate teaching faculty for them, but we are using the existing faculty to offer the bridge course," he added. Interestingly, apart from Karnataka, students from Delhi, Mumbai, Gujarat and other places have also evinced interest in the bridge course and have sought admission.

Yesterday, at a press conference, Suttur Seer Sri Shivarathri Deshikendra Swamiji said that of the 511 students admitted to the bridge course, 321 are from Karnataka. The enrolled students will be trained depending on which semester or year they were pursuing the medical course in China or Ukraine.

Admissions for JSS School in Suttur

Mysuru, May 2 (SSM) - The entrance exam and interview for admissions to JSS School in Suttur, Nanjangud taluk, scheduled on **May 4 and 5** has been cancelled in view of COVID fourth wave. Students may directly visit the school starting from today and get their admissions done after submitting the relevant documents.

For details, contact Mob: 74114-86938, according to a press release.

EDITOR'S BOTTOMLINE

Is it genes, extraneous factors, or a combination of both that play a predominant role in shaping one's inclinations, tastes and, going forward, life and career choices? It is difficult to answer this conundrum, particularly as one comes across a child of doctor parents opting for his parents' profession even as his sibling chooses the legal profession. Even though a child may have an entire genetic pool of his forebears to dip into, he could well defy probability and reject genetically tailored inclinations and influences. Indeed, his career choices may well be spurred by several, complex invisibles that could fall in a wide ambit of non-genetic influences.

Samskaras of one's past lives could play a decisive role in shaping one's present life inclinations. And the gene powerhouse can be upstaged by samskaras of past life in someone's pursuit of a radically different vocation than one dictated by bloodlines. There are enough instances of child prodigies having a head start over their peers in acquiring mastery in vocations while bypassing the normal learning process. Such children are wildcard entries in charting a course of excellence with a karmic connection to fly higher, faster, and stronger.

On the other hand, there are those who, along with right samskaras, are also genetically well-endowed. This winning combination gives them not just a platform but an entire runway, so to speak, for attaining heights of glory. Thus, a convergence of physical and spiritual genes propels them to heights of excellence.

But then, besides genes and samskaras, there is the third dimension of the physical environment that can shape human destiny for weal or woe, either in alliance with or in opposition to these two factors. The physical environment here represents one's surroundings that subsume human, socio-economic, and other pressures and can either detract from the genes and samskaras or act as synergistic allies to emerge as a formidable proposition in a positive or negative sense. To tweak an Eliotic phrase, the environment, referred to, either assumes the role of opposing 'human voices' that 'wake us and we drown' or, in alliance with genes and samskaras, make one swim against the tide faster and stronger to reach glorious shores. — *SomnathSarkar in The Times of India*

NEWS SPARKLERS

World's largest bottle of whiskey up for auction

Scotland: The world's largest bottle of whiskey, verified by Guinness World Records as holding 82.16 gallons of single-malt Scotch, is set to be auctioned in Scotland.

The Intrepid, a 5-foot, 11-inch tall bottle of 32-year-old whiskey from The Macallan Distillery, was certified as the world's largest bottle of whiskey after it was bottled by Duncan Taylor Scotch Whisky in 2021. The behemoth bottle of booze is now scheduled to be auctioned May 25 by Edinburgh-based Lyon & Turnbull.

The auction house said the bottle could set a new world record for the most expensive bottle of whiskey if it fetches a high bid exceeding $1.9 million.

World's largest belt buckle

Texas: A Montana-based company broke a Guinness World Record when it unveiled a giant belt buckle measuring nearly 15 feet across in Texas. Montana Silversmiths, based in Columbus, Mont, had the belt buckle shipped to its Dallas showroom in four parts, and the pieces were then assembled into the world's largest belt buckle.

Guinness World Records confirmed the massive belt buckle, a replica of the company's most popular buckles, measured 10 feet and 6 inches tall and 14 feet and 6.4 inches wide, enough to claim the record. The "Big Horn trophy" buckle features the silhouette of a cowboy with golden flowers, silver stars and the company's signature silver filigree.

"We are paying homage to a quintessential piece of the West and cowboy way of life. The buckle is a perfect way to celebrate the industry and come together to showcase our lifestyle in iconic fashion. It's a culmination of a lot of people's hard work, it is amazing," Judy Wagner, Montana Silversmiths' chief marketing officers said.

HEALTH CAPSULE

As medications like aspirin and Non-steroidal anti-inflammatory drugs like ibuprofen and naproxen can trigger asthma, it is best to be taken under medical prescription.

VOICE OF THE READER

Siddarthanagar roads crying for attention

Sir,

Mysuru, a city of Palaces, is a Heritage city too. Travellers across the globe who visit this city carry with them sweet memories and also memories of horrible roads. The condition of city roads are so bad that Space Agencies in India can train their moon walkers here at Mysuru! Roads are full of potholes and motorists, who drive their vehicles haphazardly to avoid these "craters," end up hitting or getting hit by other vehicles.

The condition of roads in extensions is no better. If one takes a ride on Siddarthanagar roads, a clear picture will emerge. One wonders whether people's representatives who represent this area are aware of this problem or not. Vinaya Marga, a hub of major activities of this area, too is full of potholes from GST Office to Alanahalli Layout.

It is a shame that neither the Corporator nor the MLA representing this area have bothered to visit and assess the condition of the roads. They visit the residents with a fake smile folding their hands only during elections seeking votes. The same enthusiasm vanishes once they are elected and people have to suffer for having elected them.

As a responsible citizen, I request the Corporator and the MLA concerned to go round and initiate immediate action to repair the roads. Failing which, residents of this area may have to stage protests against the 'elected representatives.'

Apollo BGS Hospital performs first Paediatric and Split Liver Transplantation in Mysuru

Mysuru, May 2- In a rare feat, the Surgical Transplant team at Apollo BGS Hospitals, Mysuru, performed the first Paediatric Liver Transplantation, giving a new lease of life to a 9-year-old boy with a fulminant liver failure.

In Mysuru, this is not only the first-ever paediatric liver transplantation but also the first transplantation for acute liver failure and the first split liver transplantation where two lives were saved by a single donor. This is also the 50th liver transplantation performed at Apollo BGS Hospital, Mysuru.

The child was referred on time by Dr. U.G. Shenoy, Consultant Paediatrician, Kamakshi Hospital, and was admitted a few days ago with jaundice and on evaluation was found to have liver failure. As the liver functions were worsening, the need for immediate liver transplantation was explained to the family. He was registered under the supra-urgent category in the State Transplant Programme.

After the surgery, the child is out of the coma and recovering well. The team consisted of Paediatric Gastroenterologist Dr. Aathira Ravindranath, Liver Transplant Surgeons Dr. Yashwanth Kumar, Dr. Suresh Raghavaiah, Dr. Jayant Reddy, Dr. Rajegowda and Dr. Sanjay Govil; Transplant Anaesthetists Dr. Nagesh and Dr. Anindita.

Bharatheesha Reddy, Vice-President & Unit Head, Apollo BGS Hospitals, Mysuru, said "We have a highly skilled transplants' team experienced from renowned institutes of the world and performing surgeries every day resulting in better outcomes. I commend their dedication and timely coordination for the transplants leading to significant improvement in organ transplants over the last decade and the patient survival at 1 year now exceeds 90% which opens up new frontiers of hope for the transplant programme."

Dr. Rajkumar P. Wadhwa, Chief Gastroenterologist and Head of Institutes of Gastrosciences, Apollo BGS Hospitals, said "Apollo BGS Hospitals transplants team reaches one more milestone of doing first paediatric transplant outside Bengaluru, which incidentally is the Gold (50th) transplant. On this occasion we members of the liver transplant renew our wish to work for better local healthcare of our very own Mysuru."

Appreciating the policies in the State, Dr. V. Yashavanth Kumar, Consultant Hepato-Biliary and Liver Transplant Surgeon, Apollo BGS Hospitals, said, "The Government policies have been beyond Bengaluru and the State has been divided into Zones facilitating the transplants programme; Mysuru being one of the Zones and decentralising healthcare is a welcome measure."

Kolada Mutt Seer Sri Shanthaveera Swamiji passes away

Bengaluru, May 2- Kolada Mutt Seer Sri Shanthaveera Swamiji (80) passed away in the early hours of Apr. 30 following a heart attack.

The Seer, who had participated in a programme at Mahalakshmi Layout on Apr. 29, complained of severe chest pain on Apr. 30 morning and suffered a heart attack.

The body was kept in the Mutt for the public and devotees to pay their last respects. Last rites were performed on Apr. 30 evening in the Mutt premises.

MCC says goodbye to leased vehicles

Welcomes You All
KEY HANDOVER CEREMONY
Tata Hitachi Shinsei Prime - 5 Nos. &
Tata Hitachi TMX20 NEO - 2 Nos. to
Mysore City Corporation, Mysuru

Mysuru, May 2 (GA&BCT)- Traditionally, Municipalities have viewed vehicle leasing less expensive than owning, as the onus of maintaining the vehicles in optimum condition is on the owner. But actually, owning a vehicle and having an exclusive service station saves money.

Realising that leased vehicles are far more expensive, the thinking has changed drastically with the Mysuru City Corporation (MCC) authorities deciding to own a fleet of vehicles and have dedicated fuel pumps and service stations.

Often, the poorly maintained and unfit MCC vehicles come under intense media glare and become a butt of jokes in social media where people upload photos of rickety carriers and pass unsavoury comments regarding their pathetic state.

A vehicle audit has revealed that those poorly maintained vehicles and those vehicles that have completed 15 years mostly belong to the outsourced category. MCC Commissioner G. Lakshmikantha Reddy realised that the old vehicles are a drain on the MCC's resources and it is a difficult task to maintain them as the vehicles have crossed their capacities.

In this scenario, he has realised that owning a vehicle and having own service station will solve the problem to a large extent. By purchasing vehicles, the dependency on outsourced vehicles will be lessened and also it will increase efficiency as there will be complete accountability.

Under the new policy of purchasing vehicles, 65 tractors have already been purchased by the MCC under Swachh Bharath Mission. 16 tractors were handed over to the MCC by District Minister S.T. Somashekar recently and at present, all the 16 tractors are being used to lift waste from roadsides and drains.

The remaining 49 vehicles are being fitted with trailers and they will be up and running by the first week of May, Lakshmikantha Reddy told *Star of Mysore*.

No middlemen

"Mysuru city is growing by the day and there is an urgent requirement for own vehicles instead of depending on private and leased out vehicles. We spoke with the vehicle manufacturers and bought the vehicles directly from them without involving any middlemen," he said.

Over 130 TATA Ace vehicles have been purchased through tenders and the vehicles will arrive in Mysuru in the first week of May. There were five backhoes with the MCC and five more have been purchased and all the nine zones have a backhoe each. One backhoe has been reserved at the plant.

There are certain autorickshaws (auto tippers) which have completed their 15 years of service and they will be e-auctioned. 78 such auto tippers have been identified for disposal and a letter has been written to the Road Transport Officer.

"As the MCC has moved in the right direction in purchasing its own vehicles, at present, there are only 18 lorries that have been taken on lease. We will stop their usage from the first week of May. Petrol pumps and service stations will be established at Sewage Farm and Rayanakere Hundi in collaboration with Indian Oil Corporation. Staff and expert mechanics will be hired to maintain the vehicles at the service stations. Work on the petrol pumps and service stations will start in a month," the Commissioner added.

Buyers in a squeeze as lemons get costlier

Mysuru, May 2 (MK&BCT)- When life gives you lemons, make lemonade, so goes the saying. But what can you do if procuring lemon itself becomes an expensive affair?

It's the peak of summer and the demand for lemon, the season's most sought-after fruit, is only rising as the mercury level heads northwards. The soaring prices of lemons have left a sour taste in people's mouths.

Apart from being used in making juices, lemons play an important part in culinary habits too as squeezing the fruit over a spicy non-vegetarian dish adds to the taste. Lemons also play an important part in Hindu rituals and are a must-have in all pujas and any ceremony associated with spirituality.

Mysuru gets its share of lemons mainly from Vijayapura. But the stocks have depleted since the last fortnight or so leading to shortage and whatever lemons are coming from there are being sold at premium prices.

A single fruit is selling for Rs. 10 and medium variety are being sold at two to three fruits for Rs. 20. The premium and succulent variety is being sold for Rs. 12 to 14 per fruit. The prices are almost similar at the Devaraja Market, Vani Vilas Market and M.G. Road Market.

Drop in production

One gunny bag of lemons will cost a trader Rs. 8,000 and it will contain over 1,200 to 1,300 fruits. "Everyone wants succulent fruits that have a smooth texture. There is a considerable demand for smaller ones too as two to three lemons can be bought for Rs. 20 instead of paying Rs. 10 or 12 to a single bigger variety," said Chandan, a trader at Devaraja Market.

According to traders, there is a 25-30 percent drop in production and this has jacked up the price of lemon.

"We are helpless and even the stocks are less. January and February are the flowering season and now the demand for lemon is usually high as people make more lemonade to quench their thirst in the scorching heat," said Mahesha, who was sitting by a small heap of lemon at Vani Vilas Market.

Customers say that rising costs are burning a hole in their pockets. "The prices are very high. I bought a dozen lemons for Rs. 100. Earlier, I used to purchase them for Rs. 30. The prices are increasing due to the summer season and everyone is asking for a refreshing glass of lime juice. Added to the woes is short-supply of the fruit," Vanishree, a regular at Devaraja Market said.

Vegetable prices too soar

Moreover, due to the increase in fuel prices, vegetables and fruits have become expensive. Vegetable prices in Mysuru have shot up due to an increase in the transportation cost, leaving the customers as well as the sellers struggling.

Vegetables like bottle gourd, potatoes, green chillies, capsicum, beans, carrot, beetroot, turnip, radish, brinjal, onion, tomato and garlic have gone up.

Summer has also pushed up the prices of fruits and fruits like apples are being sold at Rs. 180 to Rs. 250 per kg. Pomegranate is being sold for Rs. 200 to Rs. 250 and black seedless grapes are being sold at Rs. 200.

Mangoes have started arriving in Mysuru at a slow pace and Raspuri is available in moderate quantities. A fully ripe variety is being sold at Rs. 180 to Rs. 200 per kg while the semi-ripe Raspuri is being sold for Rs. 200 to Rs. 280 per kg.

Other popular varieties like Badami, Malagoba, Dussheri, Alphonso and Sendhura have not yet come to the market. Till then, the favourite juicy summer fruit will be expensive, traders said.

Second innings for tourism sector in two months

100 percent occupancy in hotels, resorts; allied sectors like travel, food, tourist guides upbeat

Mysuru, May 2 (RK&BCT)- The hospitality and tourism sectors along with its allied travel industry are upbeat as a series of holidays owing to festivals for the second time in two months have provided a fillip.

While a series of holidays on Apr. 13, 14, 15 and 16 resulted in jam-packed hotels, resorts and homestays, tourist places and full utilisation of over 3,000 travel vehicles, it is like a second innings now with weekend and holidays on Apr. 30, May 1, 2 and 3. April 30 was a Saturday, coupled with May Day (Sunday) holidays and May 2 is Ramzan and Basava Jayanti Government holidays. May 3 is Akshaya Tritiya and the festival mood will be there till May 4.

"All the 425 hotels and resorts including the ones on the city outskirts with over 10,500 rooms have 100 percent occupancy. This is like a second innings for us and is for the first time after COVID we are seeing this kind of rush," Mysuru Hotel Owners Association President C. Narayanagowda told *Star of Mysore* this morning.

Hundreds of tourists throng Mysore Palace this morning.

"There are no rooms available even in star category hotels and there is heavy footfall at all eateries, hotels and restaurants, especially the well-known ones that serve Mysuru delicacies in both vegetarian and non-vegetarian categories. Many tourists are stranded at their hotels as taxis are not available for both long and short trips," he added.

Mysuru Travels Association President C.A. Jayakumar said that there are over 3,000 tourist cabs, maxi cabs and tempo-travellers in Mysuru and there has been an overwhelming response since Apr. 10. "We are helpless as the demand for travel has grown in leaps and bounds and all the vehicles have been booked by tourists in advance to destinations like KRS, Balamuri-Yedamuri, Kodagu, H.D. Kote, Nanjangud, Kabini, Nagarahole, Bandipur and even Talakad," he said.

Tourist guides are in great demand and tourists are waiting for them in queues at places like Mysore Palace, Srirangapatna and Daria Daulat. There are many guides available for Mysuru tour also. Many registered tourist guides, who had switched over to other jobs for survival including doing daily wages during lockdowns and restricted months, are returning to their profession and are hoping for the trend to continue.

As all the rooms are booked, there is extra demand in the food sector and online food delivery aggregators are making a killing by delivering delicacies straight to the hotel rooms.

"Hospitality, travel, food and accommodation sectors are interconnected and it provides employment to over 75,000 to one lakh jobs in Mysuru, both direct and indirect. We are witnessing 100 percent occupancy for four to five days in a row that too twice in two months indicates the pre-pandemic trend. Most of the losses incurred during lockdown have been recovered and the tourism sector is headed for a sure revival," Narayanagowda added.

Semiconductor plant to come up in Mysuru

(Continued from page 1)

MP welcomes move

Welcoming the setting up of the plant, Mysuru-Kodagu MP Pratap Simha has said that the Narendra Modi Government has reserved Rs. 75,000 crore to encourage semiconductor industries and the Mysuru plant will result in overall development of the region and will be a big boost to the industry sector.

"It is a matter of pride that the semiconductor Fab plant is coming up in Mysuru. This is the reason why I was pleading to develop the Mysore Airport to international standards, Mysuru-Bengaluru 10-lane Highway and also double-tracking the railway line between Mysuru and Bengaluru thereby achieving road, rail and air connectivity," he added.

Boost to contract manufacturing

Arjun Ranga, Chairman, Confederation of Indian Industry (CII), Karnataka State Council, told *Star of Mysore* that the semiconductor plant will change the industrial landscape of Mysuru. "This is a fantastic and a progressive project taken up both by the Basavaraj Bommai Government in Karnataka and Narendra Modi Government at the Centre and is in line with Atma Nirbhar Bharat," he said.

Arjun Ranga Chairman, CII, Karnataka

Supriya Salian Chairperson, CII, Mysuru Zone

Suresh Kumar Jain Secretary, MIA

K.B. Lingaraju President, MCCI

Yaduveer Krishnadatta Chamaraja Wadiyar

Very few countries in the world have the capacity and the know-how to manufacture semiconductors and the industry coming to Mysuru is a matter of great prestige and it will open the floodgates of employment and growth. "Along with the semiconductor Fab plant many other supplier industries will grow and this will give a boost for contract manufacturing. It will revive the economy," he added.

Noting that there will be a great requirement of water to the plant, Arjun Ranga said, "The Government must also devise a mechanism or a proper channel to release the effluents from the industry and this aspect is also important."

Mysuru as industrial hub

Chairperson of CII, Mysuru Zone, Supriya Salian said that this a moment of pride for the Indian industry and indeed an encouraging news specially for Mysuru.

"This will boost manufacturing while also contributing towards the dreams of Atma Nirbhar Bharat and the Prime Minister's vision to establish India as an important partner in the semiconductor supply chain," she said.

It is a clear sign of how Mysuru is becoming a big industrial hub supported by the Karnataka Government's Karnataka Digital Economy Mission (KDEM) and Beyond Bangalore initiatives. The completion of the Bengaluru-Mysuru expressway and the approval for the expansion of the airport would also be the backbone for these developments, she said.

"Mysuru will be on the global map of semiconductor industry and will encourage additional investments apart from generating direct and indirect employment. The local industry will also largely benefit from such investments," Supriya Salian added.

Economic driver

Titular head of Mysore royal family Yaduveer Krishnadatta Chamaraja Wadiyar said, "I am very glad that the Karnataka Government is bringing ISMC to set up semiconductor Fab in Mysuru. Mysuru has a rich heritage of industry and giving impetus to economic drivers and this initiative will help stimulate growth for the country and our State, as well as our local economy."

More tax generation

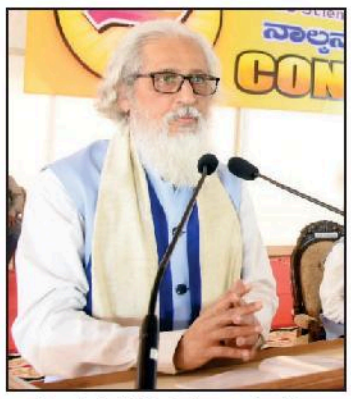
Mysore Industries Association (MIA) Secretary Suresh Kumar Jain said that this was the most expected move to Mysuru that will boost all the other allied industries. It will lead to many job creations, growth and will revive the region's economy. It will also boost tax generation.

K.B. Lingaraju, President of Mysore Chamber of Commerce and Industry (MCCI) said that Rs. 22,000 crore investment would change the face of Mysuru.

"Kochanahalli Industrial Area is already in the Government radar and this is a suitable location due to its close proximity with other industrial belt," he added.

Fourth Convocation of JSS Science & Technology University

Thrust on improvements in quality and relevance of content key for achieving excellence: AICTE Chairman Prof. Anil D. Sahasrabudhe



Prof. Anil D. Sahasrabudhe

Mysuru, May 2 (RKB&DM)- Maintaining that thrust on continuous improvements in quality and relevance of content is crucial for achieving excellence in the entire education system, AICTE (All India Council for Technical Education) Chairman Prof. Anil D. Sahasrabudhe said that the professional education efforts of JSS Mahavidyapeetha is laudable in the present context.

He was delivering the Fourth Convocation address of JSS Science and Technology University (JSS STU) at SJCE campus here this morning.

Pointing out that the University has been serving the cause of society's higher education by starting a wide range of Engineering and Technology courses at Graduate, Post-Graduate and Doctorate levels, Prof. Sahasrabudhe said he is happy to note that JSS STU has already implemented the programmes in line with the National Education Policy-2020 guidelines, wherein the curriculum and multiple exit with equivalent certification is being awarded.

Noting that the new graduates have reached a milestone in their academic life, he said that learning never ends here irrespective of whether they go for higher education or opt for a job. Learning is and has to be a lifelong process, he added.

Arguing that knowledge plays a crucial role in the overall progress of one's life, Prof.Sahasrabudhe said he heard recently that CEP Cell has been established in the University for providing lifelong learning and for capacity building. Noting that continuous learning gains relevance in the backdrop of technologies that came into existence just a decade ago have become obsolete with rapid advancements, he opined that availability of skilled human resources including trained technical manpower plays a major role in the nation's growth.

Terming JSS Mahavidyapeetha as a formidable educational movement, more than an Institution, Prof. Sahasrabudhe said that it is happy to note that it is producing highly competent technical and managerial manpower for decades to meet the ever changing challenges in the era of globalisation.

A total of 1,519 students, including UG, PG and Ph.D students received their certificates on the occasion. A total of 13 first rank holders from 12 different Departments in Engineering (UG) and one from BCA course were presented gold medals. Also, 20 PG toppers including 14 in Master of Technology, one from MCA, one in M.Sc (Chemistry) and four from MBA belonging to different steams, were presented gold medals.

Suttur Seer Sri Shivarathri Deshikendra Swamiji graced the occasion. JSS Mahavidyapeetha Executive Secretary Dr. C.G. Betsurmath, Technical Education Division Advisor Prof. M.H. Dhananjaya, Director, Technical Education Division Dr. B. Suresh, JSS STU Incharge Vice-Chancellor Prof. A.N. Santosh Kumar, Registrar Prof. S.A. Dhanaraj and others were present.

Bridge course for Ukraine returnee medicos

(Continued from page 1)

"Both theory and practical classes will be conducted and clinical observation will be provided along with skill training using skill lab and virtual case scenario," the Swamiji said.

All laboratory facilities will be provided free of cost. However, during practicals, the bridge course students can only observe the patients as they would not be authorised to examine them or administer treatment as per the prevailing norms of medical education, he added.

Though no fee will be charged for students, they should make their own arrangements for boarding and lodging. This programme is offered as purely transient academic support for students who are in distress.

According to Dr. B. Suresh, Pro-Chancellor, JSS Academy of Higher Education and Research (JSS AHER), the bridge course will be held in four batches and classes will be tailor-made after understanding their courses through course mapping. Teaching will be based on relevance of the curriculum taught at their respective institutions, he said.

The duration of the course would vary from four to eight weeks. "After completion of the bridge course, students will be given certificates that will mention the studied subjects along with individual assessment of Professors. We are doing this just to ensure that there is continuity in studies. Students cannot stake any legal claims with the certificates," Dr. Suresh added.

Vice Chancellor of JSS AHER Dr. Surinder Singh said that after brainstorming, the course has been designed in such a way that it would bridge the gap between knowledge and skill that has occurred due to unforeseen circumstances. "The gap is created due to the lack of contact with teachers and access to laboratories. However, the course will not cover the subjects which are currently being taught online to prevent overlapping or duplication," he added.

JSS AHER Registrar Dr. B. Manjunatha and JSS Medical College Principal Dr. H. Basavanna Gowdappa were present at the press conference.

'Udyami Aagu, Udyoga Needu & Kaigarika Adalat'

Will power must for entrepreneurship: Minister Murugesh Nirani

Mysuru, May 2 (RKB&DM)- Large and Medium Scale Industries Minister Murugesh Nirani said that will power was a must for entrepreneurship.

He was speaking after inaugurating the 'Udyami Aagu, Udyoga Needu' (Be an Entrepreneur, Become an Employer) — a programme aimed at attracting youths and professional students to entrepreneurship and employment generation, organised by the Department of Industries and Commerce in association with other Government agencies at KSOU Convocation Hall on Hunsur Road here on Apr. 28.

Nirani pointed out that students will be extended all help to become entrepreneurs in the areas of their interest and experts from various sectors and Government Departments will provide the necessary guidance.

Pointing out that subsidies will be provided to economically weaker communities to become entrepreneurs by starting industries, Nirani said that the programme is being held across Karnataka to promote entrepreneurship among technically qualified persons to turn them into employment generators instead of being job-seekers.

Highlighting the subsidies available in various sectors such as Textiles, Ethanol production etc., the Minister said that Karnataka has emerged as one of the top FDI (Foreign Direct Investment) recipients with a share of 42 percent in the country.

Maintaining that the State is one of the most attractive investment destination because of many industry-friendly policies and progressive reforms, he said that Bengaluru has been an innovation hub with many global companies setting up their R&D centres in the city.

Stating that Nalwadi Krishnaraja Wadiyar was a great source of motivation and inspiration for him, Nirani said that he has set up 22 industries in different sectors, providing direct or indirect employment to thousands of people.

Minister for Municipal Administration and Small Scale Industries MTB Nagaraj, in his address, said that IT Major Infosys, which was founded with little investment by N.R. Narayana Murthy, Dr. Sudha Murty and others, has now grown into a huge Multi-National Company (MNC) providing jobs to lakhs of technically qualified graduates.

Noting that Industries Minister Murugesh Nirani has now become a big industrialist after starting a small-scale sugar industry, Nagaraj recalled his growth as an entrepreneur by becoming the owner of the biggest brick industry of the State, providing jobs to over 500 people, after starting with a small brick kiln way back in 1968 near Bengaluru.

Chamaraja MLA L. Nagendra said that the erstwhile Mysore Maharajas established many big industries in Mysuru such as Mysore Lac and Paints (Mysore Paints and Varnish Ltd.), Power and Paper industries.

Contending that the BJP Government in the State was providing a subsidy of 75 percent for entrepreneurs from the SC community, the MLA said that no other Government in the past has provided such a huge subsidy.

Stressing on the need for promoting entrepreneurship among young and enthusiastic youths, he wanted industries to grow multiple fold in the next 10 years.

Minister Murugesh Nirani also interacted with students and urged them to start their own enterprises and create numerous opportunities for themselves and others.

Around 5,000 students from the districts of Mysuru, Mandya, Chamarajanagar, Chikkamagalur, Hassan and Kodagu districts coming under Mysuru Division participated in the programme through video-conferencing.

Chairmen of various Boards and Corporations — S. Mahadevaiah, N.V. Phaneesh, N. Shivalingaiah and N.R. Krishnappagowda, Commissioner of Commerce and Industries Department Gunjan Krishna, MSME Director R. Vinoth Priya, KIADB CEO Dr. N. Shivashankar, Karnataka Udyoga Mitra Managing Director Doddabasavaraju, MCCI President K.B. Lingaraju and a host of other officials were present.

Kaigarika Adalat

Later in the day, Kaigarika Adalat was conducted at the same venue. A total of 39 grievances were received by the authorities and were disposed off during the event. The grievances pertained to nearly 15 Departments of the Government. The programme, which was held in Mysuru after a gap of more than 10 years, was an initiative to help industrialists and other stakeholders to resolve their grievances and complaints on the spot.

Speaking during the Adalat, Minister Nirani assured that measures will be taken to address the problems and grievances raised by industrialists and that the concerned Department will be asked to interact with the stakeholders for resolving issues.

Officials from KIADB, KSSIDC, KSPCB, Labour, Factories and Boilers, Urban Development, Power, Municipal Administration, Fire and Emergency Services Department attended the Adalat.

As election nears, Mandya district expects party hopping by leaders

Atmananda *Sachidananda* *Vijayananda*

By M.K. Mohanraj

Mandya, May 2- With the Karnataka Assembly elections just a year away, the stage has been set for party hopping by politicians who are seeking greener pastures in their political future.

In a bid to further boost its prospects in the upcoming Assembly polls, the JD(S), which has a strong base in Mandya district, is said to be wooing senior Congress leader and former Minister M.S. Atmananda.

State JD(S) President C.M. Ibrahim, who contacted Atmananda over phone, is said to have extended an invitation to him on joining the JD(S), which invite is even acknowledged by Atmananda.

Meanwhile, the BJP too is not lagging behind in wooing leaders of other parties or independents. The BJP is said to be wooing Induvalu Sachidananda, who is widely traversing across Srirangapatna Assembly Constituency of late with an eye on contesting the polls.

Last year, the then Mandya District in-Charge Minister K.C. Narayangowda had visited the residence of Sachidananda in a bid to persuade him to join the BJP. Now, Health Minister Dr. K. Sudhakar too visited his residence recently and extended an invitation for joining BJP.

Continuing its drive for bringing in popular leaders to the party, the BJP is also said to have set its eyes on K.S. Vijayananda, the grandson of popular leader of the district late K.V. Shankaragowda, who was also a former Minister. But Vijayananda, who is currently in the JD(S), is said to have rejected the invitation of BJP leaders.

On the other hand, Keelara Radhakrishna, who is said to be trying for a JD(S) ticket from Mandya, is likely to switch over to the BJP if he fails in getting the JD(S) ticket.

In other developments, Dr. Krishna, a JD(S) leader of the district, had joined the Congress. Political watchers feel that there may be more defections to come in the coming days as the Assembly polls gets nearer.

MP Sumalatha says she will not join any party

Maddur, May 2 (Mohanraj)- Setting aside speculations that she would be joining the BJP, Independent MP from Mandya Sumalatha Ambarish, wife of late actor Ambarish, asserted that she had not anywhere discussed plans about joining the BJP or any other party.

Speaking at the Taluk-level health programme that was organised at Maddur on Thursday, Sumalatha clarified that she met Chief Minister Basavaraj Bommai recently to discuss developmental issues concerning Mandya LS Constituency which she represents.

Maintaining that she did not discuss politics with the CM, Sumalatha, replying to a question on Minister Dr. C.N. Ashwathnarayan extending an invitation to her, said that she was not interested in that.

Replying to a question on rumours of her supporter Induvalu Sachidananda joining the BJP, the MP said that everyone has the freedom to join any part.

Sumalatha Ambarish

Contending that there need not be any confusions regarding her political identity as she likes to be an independent, she said that she has launched a slew of developmental works, which had come to a halt due to COVID pandemic. As there was an urgent need for expedition of works, she has released money from her MP LAD funds to ensure that the works do not lag behind.

Leaders B. Vivekananda, Shilpa Shivalingu, N.K. Ramalingaiah, Mahendra, Shashi and others were present.

'Shaheedon Ko Shat Shat Naman'

NCC presents 'Plaque of Gratitude' to parents of martyred soldiers

Parents of late Sapper G. Sharath of Vasanthnagar in Mysuru, parents of late Sepoy B.K. Sudheer, Sena Medal (Posthumous) from Swarnasandra in Mandya and the next of kin of late Sepoy P.N. Mahesha and Sepoy Sundra, both from H.D. Kote, were presented with 'Plaque of Gratitude' by the NCC Mysuru on Friday.

Mysuru, May 2 (KS)- As part of *Azadi Ka Amrit Mahotsav* and as per the initiative taken by Prime Minister Narendra Modi, more than 26,000 martyrs from across the country are being honoured with the 'Plaque of Gratitude' under the nationwide flagship programme of National Cadet Corps (NCC) titled 'Shaheedon Ko Shat Shat Naman.'

This event to honour the supreme sacrifices made by the fallen heroes in defending the nation commenced on Jan. 26, 2022 and the NCC plans to present this plaque to the next of kin of all martyrs by Aug. 15, 2022, across the country.

On Friday (Apr. 29), a ceremony was organised at 14 Kar Bn NCC, Mysuru, to present the 'Plaque of Gratitude' to the parents of late Sepoy B.K. Sudheer, Sena Medal (Posthumous) from Swarnasandra in Mandya and to the parents of late Sapper G. Sharath of Vasanthnagar in Mysuru.

The 'Plaques of Gratitude' were presented by Colonel Manish Prasad, Commanding Officer of the 14 Karnataka Battalion and Administrative Officer Col. Kirti Singh Bisht on behalf of PM Modi. Also, the 1 Karnataka Artillery Battery NCC Group, Mysuru, presented the 'Plaque of Gratitude' to the next of kin of late Sepoy P.N. Mahesha and Sepoy Sundra, both from H.D. Kote. Colonel R.R. Menon, Group Commander, Mysuru Group NCC, CUO Swagat and Lieutenant Colonel Vishal Mishra, Officer Commanding 1 Art. Bty, NCC, attended the programme launched as part of the celebration of 'Azadi Ka Amrit Mahotsav' coinciding with the 75th Anniversary of India's Independence.

Obituary

Lakshmamma

Mysuru, May 2- Lakshmamma (74), wife of late Dr. M.S. Chaluvegowda and a resident of Brindavan Layout, passed away yesterday evening at her residence following age-related illness.

She leaves behind a daughter and a host of relatives and friends. Last rites were held at the family's farm land in Metagalli this morning.

Alhaja Shabreen Taj

Alhaja Shabreen Taj (62), retired Urdu teacher, wife of Alhaj Rahmatullah Shariff (retired Inspector of Schools and Director of Muslim Co-op. Bank Ltd., Mysuru) and a resident of Udayagiri, passed away on Apr. 30 in city.

She leaves behind her husband, two sons, one daughter and a host of relatives and friends. Namaz-e-Janaza was held yesterday at Masjis-e-Azam on Ashoka Road, followed by burial at Muslim Burial Grounds near Tipu Circle.

Sundramma

Kollegal: Sundramma (67), wife of late Dr. Kempananjappa and a resident of Kollegal in Chamarajanagar, passed away on Apr. 25 at Raleigh in North Carolina, USA, following a heart attack. She leaves behind daughter Dr. Tejaswini, son-in-law, grandchildren and a host of relatives and friends. Last rites were held at Raleigh yesterday.

PUBLISHED IN PUBLIC INTEREST

NATIONAL DISASTER MANAGEMENT AUTHORITY, GOVT. of INDIA

A-1, Safdarjung Enclave, New Delhi-110029

PUBLIC NOTICE

The General Public is hereby informed that Hon'ble Supreme Court vide its Order (Reportable) dated 24th March 2022 in the Miscellaneous Application No. 1805 of 2021 in Writ Petition (C) No. 539 of 2021 has issued following key directions:

- ✓ Fixing of Outer Time Limit of 60 Days [w.e.f 24.3.2022, the date of the Hon'ble Supreme Court's Order] to file the claims for compensation in case the death occurred due to COVID-19 prior to 20th March 2022.
- ✓ For future deaths ninety days' time shall be provided from the date of death due to COVID-19 to file the claim for compensation.
- ✓ The earlier Order to process the claims and to make the actual payment of compensation within a period of thirty days from the date of receipt of claim shall continue to be enforced.
- ✓ In case of extreme hardship where any claimant could not make an application within the time prescribed, it will be open for the claimant to approach the Grievance Redressal Committee and make the claim through Grievance Redressal Committee which shall be considered by the Grievance Redressal Committee on case to case basis and if it is found by the Grievance Redressal Committee that a particular claimant could not make the claim within the stipulated time which was beyond their control his/her case may be considered on merits.
- ✓ In a bid to minimize the risk of fake claims, a random scrutiny of the 5% of the claim applications shall be made at the first instance, If it is found that anybody has made a fake claim, the same shall be considered under Section 52 of the Disaster Management Act, 2005 and liable to be punished accordingly.

The Complete Order may be accessed on NDMA's Website https://ndma.gov.in The PUBLIC NOTICE is issued for information, compliance and necessary action for all concerned.

DAVP-19106/11/0003/2223

WORD OF THE DAY

Simulacrum

Pronunciation: sim-yuh-LAK-rum.
Meaning: A simulacrum is a superficial likeness or representation of something.
Origin: There is a similarity between simulacrum and simulate. Both words come from simulare, a Latin verb meaning "to copy, represent, or feign." Simulacrum is the name for an image or representation, and simulate means "to look, feel, or behave like something."
Example: "Bracelets, brooches, collars, and rings drip with diamonds in a simulacrum of a starry night—the galaxy rendered in platinum and gold." — Camille Okhio

THE ODD WORD

Sacring

Hallowing; consecration.

PHRASE OF THE DAY

Sick as a dog

Meaning: When you use the phrase 'Sick as a Dog' you mean that someone is very sick.
Origin: The origin of the phrase 'sick as a dog' can be found in the early 1700s, when it was common to compare undesirable things to dogs. The explanation for this isn't that people didn't like dogs, it is that diseases such as the plague were often spread via animals like rats, birds, and unfortunately, dogs.
Example: "How are you?" Answer: "Not great. In fact, I've been sick as a dog for the last three days."

QUOTE BOX

I want to work like a dog, doing what I was born to do with joy and purpose. I want to play like a dog, with total, jolly abandon. **—Oprah Winfrey**

RIDDLE THIS

Solve the rebus:

Answer: Eye shadow.

Sudoku is a number-placing puzzle based on a 9x9 grid with several given numbers. The object is to place the numbers 1 to 9 in the empty squares so that each row, each column and each 3x3 box contains the same number only once. The difficulty level of the Concept is Sudoku increases from Monday to Sunday.

CRYPTOQUIP

The Cryptoquip is a substitution cipher in which one letter stands for another. If you think that X equals O, it will equal O throughout the puzzle. Single letters, short words and words using an apostrophe give you clues to locating vowels. Solution is by trial and error.

Procession to mark Basava Jayanti celebration in city tomorrow

Mysuru, May 2 (MTY&DM)- The District Administration, in association with several Veerashaiva-Lingayat organisations will celebrate Basava Jayanti in city tomorrow (May 3).

Announcing this at a press meet here on Saturday, Basava Jayanti Celebration Committee President Sadashivamurthy said that Suttur Seer Sri Shivarathri Deshikendra Swamiji will grace the stage programme to take place at Kalamandira on Hunsur Road at 11 am.

District Minister S.T. Somashekar will inaugurate the programme. MLA L. Nagendra will preside while MP Pratap Simha will release a book. Incharge Mayor Sunanda Palanetra, Chamarajanagar MP V. Sreenivasa Prasad, MLAs G.T. Devegowda, Tanveer Sait, S.A. Ramdas and Dr. Yathindra Siddharamaiah and other leaders will take part, he said.

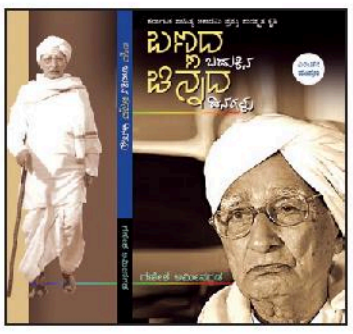
Grand procession

Sadashivamurthy said that prior to the stage programme, a grand procession featuring a bust of Basavanna will be taken out from Basaveshwara Statue near JSS Mahavidyapeetha at 8 am, which will be flagged off by Gurumalleshwara Mutt Seer Mahanta Swamiji.

The procession will pass through Sayyaji Rao Road, K.R. Circle, D. Devaraj Urs Road, JLB Road and Vinoba Road to reach Kalamandira, the venue of the stage programme.

Celebration Committee members Mahadevaswamy, Hinkal Basavaraju, T.S. Lokesh, Shobha Jayaprakash, Umesh and others were present.

Book release tomorrow



Mysuru, May 2- Karnataka Sahitya Academy Award-winning book 'Bannada badukina chinnada dinagalu' based on the theatre experience of Enagi Balappa by Ganesh Amingad has been reprinted for the 8th time and the same will be released at a programme to be held at Kalamandira in city tomorrow (May 3) at 11 am under the aegis of Akhila Bharata Veerashaiva-Lingayata Mahasabha, Veerashaiva-Lingayata associations and organisations, Basava Balagagala Okkuta and the District Administration.

Suttur Seer Sri Shivarathri Deshikendra Swamiji will grace the occasion. The book was first printed in 2007 and has been translated to English and Marathi. Also, it has become the textbook for Karnataka State's 7th standard, Belagavi's KLE University and Rani Chennamma University, Mangaluru University and Maharashtra's 9th standard students studying Kannada.

The book will be available for sale at a discounted price at the event venue.

DR. JOHN SHEA
04-09-1924 to 08-02-2015

Remembering and Saluting Dr John Shea
The birth of an Ear Microsurgery - Stapedectomy

66 years ago, (01-05-1956), Dr John Shea known as the father of Stapedectomy, an eminent ENT Surgeon from Tennessee, USA, successfully operated upon a 54 year old housewife suffering from Otosclerosis (A middle year disease seen in middle aged patients without ear discharge resulting in progressive deafness) The patient's hearing was restored after the surgery and the surgeon used Teflon Piston Prosthesis for the first time. The surgery is known as Stapedectomy a miracle Microsurgery.
